

## TRAINING SESSION OUTLINES

### Block 1: Establishing a positive climate for learning

#### Overview

- The ECF statements covered by the training sessions in this Block are shown in the table.
- These sessions are complemented by and draw on the self-directed study materials and mentor sessions.

In these training sessions, ECTs will:

| Learn how to   |
|--|
| <b>Demonstrate consistently high behavioural expectations, by:</b>   |
| 1e Creating a culture of respect and trust in the classroom that supports all pupils to succeed (e.g. by modelling the types of courteous behaviour expected of pupils). |
| 1f Teaching and rigorously maintaining clear behavioural expectations (e.g. for contributions, volume level and concentration)   |
| 1g Applying rules, sanctions and rewards in line with school policy, escalating behaviour incidents as appropriate   |
| <b>Develop a positive, predictable and safe environment for pupils, by:</b>  |
| 7a Establishing a supportive and inclusive environment with a predictable system of reward and sanction in the classroom   |
| 7c Giving manageable, specific and sequential instructions   |
| 7f Using early and least-intrusive interventions as an initial response to low level disruption  |
| <b>Establish effective routines and expectations, by:</b>  |
| 7j Reinforcing routines (e.g. by articulating the link between time on task and success)   |
| <b>Build trusting relationships, by:</b>   |
| 7l Responding consistently to pupil behaviour  |

## Session summary

The training sessions for this Block are:

| Session | Content  | Duration   | ECF statements covered |
|---------|--|------------|------------------------|
| 1.1     | Setting clear expectations                               | 30 minutes | 1f, 7c, 7d, 7j         |
| 1.2     | Early and least-intrusive interventions                  | 90 minutes | 1e, 1g, 7f, 7l         |
| 1.3     | Least-intrusive interventions and building relationships | 1 hour     | 1e, 1f, 7a, 7f, 7l     |

## Training session 1.1 Setting clear expectations

The intended outcomes of this session are for Early Career Teachers to:

**Learn how to:**

**Demonstrate consistently high behavioural expectations, by:**

- 1f Teaching and rigorously maintaining clear behavioural expectations (e.g. for contributions, volume level and concentration)

**Develop a positive, predictable and safe environment for pupils, by:**

- 7c Giving manageable, specific and sequential instructions

**Establish effective routines and expectations, by:**

- 7j Reinforcing routines (e.g. by articulating the link between time on task and success)

|  |                       |  |
|--|-----------------------|--|
| <p><b>Intervention techniques (30 minutes)</b></p> <p>ECTs might feel that sometimes when a lot of pupils are on task and only a small number are off task or distracted that it is better to let them carry on rather than wasting time by stopping the group. The purpose of this exercise is to allow them to see the benefit of ensuring they have 100% focus in the class. It is fine to stop the class to get them back on track but it would be even better if we can use our least-invasive techniques to correct behaviour and get everyone on track with minimal disruption.</p> <p>1. Read the scenario to the group. The trainer may want to read this aloud, have it printed for ECTs to go through on their tables or ask ECTs to read alone and then discuss in pairs.</p> <div style="border: 1px solid black; padding: 5px; margin: 10px 0;"> <p>You have given your class a task to complete and you have asked them to complete it in silence. Some pupils have got started and are working well, a few are half working but chatting quietly and a small number are totally off task.</p> </div> <ul style="list-style-type: none"> <li>• What would you do?</li> </ul> <p>2. Explain to ECTs that:</p> <ul style="list-style-type: none"> <li>• You always want there to be 100% attention and focus from your class</li> <li>• It is important that you settle for nothing less</li> <li>• Stopping a class for a reset can be effective if used judiciously but we want to avoid constantly stopping and resetting</li> <li>• You want intervention to be fast and invisible – <b>this is what we are focusing on today.</b></li> </ul> <p>3. Display the three least-invasive techniques and explain what they are if needed.</p> <ul style="list-style-type: none"> <li>• <b>Non-verbal</b> – non-verbal signals such as raising your hand when you want silence, putting your fingers to your lips when you want silence...</li> <li>• <b>Positive group reminder</b> – telling the class what they should be doing at that moment as a prompt to those pupils that need it. Such as “I need all eyes on the board”.</li> <li>• <b>Anonymous reminder</b> – telling the class what they should be doing but noting that there are some pupils who are not complying. Such as “I need all eyes on the board...I need two more sets of eyes”.</li> </ul> | <p>1e, 1g, 7f, 7l</p> |  |
|--|-----------------------|--|

4. In pairs/groups, ECTs should discuss/write down the reasons for using each one. These could include:

**a. Non-verbal**

- Fast and invisible correction
- Addresses behaviour instantly
- Doesn't disrupt the flow of learning
- Doesn't disrupt the pace of the lesson.

**b. Positive group reminder**

- Verbal reminder to the class
- Use to catch off-task behaviour early
- Quick and positive
- Corrects behaviours you see and those you don't
- Use to describe what you want to see
- Use few words as possible.

**c. Anonymous group reminder**

- Slightly more invasive than a positive group reminder
- Makes it clear that not all pupils are complying
- Still anonymous because you do not identify the pupils.

5. Ask the questions:

- Why should we choose least-invasive interventions first?
- How do these techniques support a positive learning environment?

**Points may include:**

- Supports positive relationships – pupils do not feel singled out or embarrassed
- Keeps climate positive
- Focuses on what you want to see rather than negatives
- Allows you to hold pupils to high expectations.

### Putting it into practice (30 minutes)

Share the example instructions with the group. The trainer may want to model this to ECTs.

Ok class I need to see everyone looking this way in 5, pens down in 4, 3, arms on the table, 2 and eyes on me.

Explain that these are the instructions we are going to use for the next activity. Would they be clear to pupils? How?

- Indicates visible compliance
- Time frame for pupils
- Specifically telling pupils what you want to see
- Focuses on positive rather than negative
- Concrete instructions.

Look at the example scripts and have a go at practising with a partner or group:

- Stand up if you are playing the teacher
- Practise each one and provide feedback.
- Swap over.

#### Example scripts

**Non-verbal:** Ok class I need to see everyone looking this way in 5, pens down in 4, 3, arms on the table, 2 and eyes on me 1 (scans the room and indicates pens down to pupils). Great. I can see I have 100%.

**Positive group reminder:** Ok class I need to see everyone looking this way in 5, pens down in 4, 3, arms on the table, 2 and eyes on me. I need to see all eyes on me...that's it.

**Anonymous group reminder:** Ok class I need to see everyone looking this way in 5, pens down in 4, 3, arms on the table, 2 and eyes on me. I need to see all eyes on me. I am waiting for two people.... great.

## Training session 1.3 Least-intrusive interventions and building relationships

The intended outcomes of this session are for Early Career Teachers to:

**Learn how to:**

**Demonstrate consistently high behavioural expectations, by:**

- 1e Creating a culture of respect and trust in the classroom that supports all pupils to succeed (e.g. by modelling the types of courteous behaviour expected of pupils)
- 1f Teaching and rigorously maintaining clear behavioural expectations (e.g. for contributions, volume level and concentration)

**Develop a positive, predictable and safe environment for pupils, by:**

- 7a Establishing a supportive and inclusive environment with a predictable system of reward and sanction in the classroom
- 7f Using early and least-intrusive interventions as an initial response to low level disruption

**Build trusting relationships, by:**

- 7l Responding consistently to pupil behaviour

It is rude. **Focusing on the negatives rather than the positive.**

Explain that it is important to be mindful when using private individual reminders as we want to get pupils back on track quickly and keep the interaction positive. When giving a private individual reminder, keep in mind:

- Emphasise the purpose
- Give a clear instruction
- Make sure the pupil knows what they should be doing.

Look at the example below in pairs/groups and answer the questions:

(Leans down to pupil's eye level)

Ralph, when I was giving instructions I did not see your eyes on me. It is important that when I am telling the class what to do, you are on task. When I asked you a question, you didn't know the answer. That tells me you need to work harder if you're going to be able to get the right answer. Eyes on me when I am giving instructions. Thank you

- What does the teacher say that makes the private individual reminder effective?
- Is there anything the teacher does that makes the private individual reminder effective?
- How does the teacher model the courteous behaviour expected of pupils?
- How would this make the pupil feel?

Go through answers as a group. The trainer could take feedback from individual ECTs or ask groups to share their thoughts.

(Leans down to pupil's eye level) **Gets to eye-level to ensure focus.**

Ralph, **addresses pupil by name.**

When I was giving instructions, I did not see your eyes on me. It is important that when I am telling the class what to do, you are on task. When I asked you a question, you didn't know the answer. **The reason the teacher is addressing this pupil is because they didn't know the answer, the teacher is demonstrating that they want the pupil to succeed academically rather than comply without meaning.**

That tells me you need to work harder if you're going to be able to get the right answer. Eyes on me when I am giving instructions. Thank you. **Explains what they want to see.**

Good, and as I said earlier it is a challenging objective that everyone needs to work hard to achieve.
